

CEM 101 Lab Safety Agreement.

This should be the only item page 1 of your lab notebook.

It will serve as a constant reminder that you have promised to comply.

Turn in the original copy (as part of Lab 1 hand-in) to your lab instructor.

I understand a seat in the laboratory of CEM 101 is contingent upon:

1. Arriving on time ... I acknowledge that the chemistry department policy is to deny seating for late arrivals.
2. Having notebook prepared as defined in the lab briefing
3. Following all safety rules as defined by the instructor
4. Dressing appropriately as defined in the lab briefing
5. No food or drinks in the lab
6. Leaving all electronic devices (except calculators) in the storage area.
7. Turning off all cell-phones
8. Never returning reagents to original bottles
9. Wearing safety goggles/glasses when advised to do so by the instructor
10. Never return reagents to bottles
11. Always clean up, put everything away, and wipe down
